14. Chief, ETF attended a working group meeting at FBI on 5 February, with representatives of FBI and DIA to draft a Countermeasures Advisory Panel (CAP) policy paper on the domestic TEMPEST threat.

15. Representatives of Agency and Community Systems Branch (A&CSB) and Industrial Systems Branch (ISB) met with Office of Logistics, Real Estate and Construction Division staff and contractor personnel to discuss security requirements for Personal Computer systems which will be used by their  Project Office.

25X1

16. Agency and Community Systems Branch officers have been asked to participate in development of a plan to internet Agency contract teams to enhance sharing and storage of contracting plans. ISG officers will attend monthly working group meetings to establish requirements and will follow this project (CTLAN), being run by DS&T, throughout its life cycle. Security forms a full section of the proposed study and will be given major emphasis in the requirements definition stage of the life cycle of this system.

17. The Information Security Group (ISG)-chaired Agency Task Force met with the National Security Agency (NSA) to introduce system engineering concepts into the DCID 1/16 on 1 February at NSA. These changes will allow for Agency designed and engineered security mechanisms to be approved. Agreement was reached between CIA, NSA and IC Staff on language and concepts. On Friday, 5 February, the concepts and language were discussed with the full community and agreement was reached. Outstanding issues which need to be resolved prior to full coordination of the new DCID are in the area of resources, scope, applicability, and authority.

18. The Sensitivity Labeling Study being performed by Unisys for ISG under the DCI COMPUSEC project will be briefed to the NSA Research and Development staff on 11 February. Several community members have requested that findings and results from this project be made widely known as well as the Air Force, Rome Air Development Center, has also requested a briefing. Thus far, OIT, DIA, NSA, MITRE, IBM, Key Logic, and the Intelligence Handling Committee have been briefed on preliminary results.

23. The HSD Personnel Officer met with DD/OP for Employment to discuss transferring the processing of applicants for the Security Escort Program to OP/Employment Division. The goal is to have escort applicants processed in the same way as other Agency applicants.

24. HSD has learned that NBPO intends to install picnic-type furniture in the courtyards on the exterior of the North and South connectors to the NOB. This in essence creates two additional entrances to the OHB/NOB. These points of entry were not planned and will necessitate additional SPO posts and PASS equipment. The contractor estimates the PASS cost at approximately \$200K. PSD is monitoring via the ILSP.
